<u>Product Notification -_SLC4060-MSTP (PGW) Integral MS/TP Option</u>

03/05/22

A new product variation for the SLC4060 (PGW) is available now that provides **BACnet MSTP** as an integral solution. This PGW model *provides a cost savings over the previous solution of adding the SLC4082 protocol converter.*

- **Features**
    - **Isolated RS485 interface, providing protection against ground loops and faults from the other network-connected devices.**
    - **Baud rates supported:**
        - **9600**
        - **19200**
        - **38400**
        - **76800**
    - **Firmware upgrades using ubiquitous USB micro cable.**

- **Details**
  - The MS/TP Instance ID (default 4060) is configured via the SLC4075, touchscreen.
  - The MAC address is configured with the on-board SLC4060 DIP switches

- **Availability**
  - *SLC4060-MSTP available NOW*

- **How To Order:**
  - **SLC4060-MSTP**
  - **For the Building Management Bundles, SLC4099-x-MSTP, where x is the screen size of 4, 7, or 10.**

- **Pricing**
  - Refer to the latest price lists.

- **Comments or Questions?**
